

# Oceanography for Boaters

wind | currents | waves | tides | weather  
and much more!

These series of talks are for anyone who wants to learn more about the ocean they play in.

Practical applications through knowledge of oceanography will enable the boater to understand the conditions around them and aid them in predicting what lies ahead of their bow wave.

Taught by Michael Leneman – an Oceanography Professor, owner of Multi Marine and one of the top multihull racing skippers in California, Mike's lecture style will enlighten, entertain and "flood" you with information that will astound you.

*"If you love the water, you can't afford to miss this series!"*

---

March 16

## OVERVIEW OF THE OCEANS

Origins, salinity, history, plate tectonics

---

March 23

## CORIOLIS EFFECT

Major influence of all moving bodies  
– wind & currents.

---

March 30

## WORLD-WIDE WIND PATTERNS

Trades, Westerlies, Doldrums...

---

April 13

## OCEAN CURRENTS

Local and worldwide currents

---

April 20

## WIND WAVES

Deepwater waves and their origin  
and life cycle

---

May 4

## WAVES AND BEACHES

Surf, Tsunamis and fathometry

---

May 11

## TIDES

Local and world wide, reading  
tide charts

---

A series of 7 Lectures

Tuesdays from 7pm to 9 pm

March 16, 23, 30; April 13, 20 and May 4, 11

Space is limited – reservations are recommended

Call Mike Leneman at Multi Marine

(310) 821-6762

Cost: \$12 per session or \$60 for the series.

Lectures held at:

Open Sailing

4695 Admiralty Way, Marina del Rey, CA 90292

Corner of Mindanao and Admiralty Way—enter on Admiralty.

Plenty of free parking inside.
